

USA and TruckVault Team Up to Enhance Member Benefits

The Union Sportsmen's Alliance (USA), North America's premier hunting and fishing club exclusively for union members, and TruckVault, the industry leader in secure in-vehicle storage systems, have teamed up to enhance member benefits of the USA.

Hallmarked by superior American craftsmanship, TruckVault storage units offer vehicle equipment storage solutions in the sports, law enforcement and public safety markets. Taking great pride in their products and the quality they represent, TruckVault also builds a number of custom products, from custom office centers to modified drawer layouts. "Our attention to detail and superior customer service sets us apart from our competition," said Don Fenton, TruckVault's VP of sales. "We listen to our customers and manufacture our products to fit their individual needs."

Thanks to this new partnership, all USA members receive a 20% discount on TruckVault's full line of products, including their popular Xtreme Series for sportsmen. TruckVault also supports the USA's ongoing giveaways for members. In the fall of 2008, the USA ran a promotion exclusively for its International Association of Fire Fighters (IAFF) members, offering all IAFF members who joined the USA by November 5, 2008, the chance to win a TruckVault storage unit valued at more than \$4,000.

Recognizing the value of USA membership and the chance to win a TruckVault unit, IAFF Local 94 member Kevin Scanlon joined the USA and was later drawn as the lucky winner.

"Due to a back injury, it used to be pretty difficult to haul and load all my hunting and fishing gear," said Scanlon. "But my new TruckVault unit has made it a lot easier to transport all my gear and it keeps everything safe and organized."

TruckVault's Extreme Series offers weatherproof protection to suit the toughest environments. Whether deep in the backcountry or within city limits, the TruckVault Extreme Series unit offers convenience and secure storage, while maximizing usable hauling space.

"We are excited to support the Union Sportsmen's Alliance because we see the fit between our product lines and USA members' needs on the job and in the field," said Fenton. "Donating one of our U.S. made Extreme Series units to help build the club's membership with IAFF members was a really great way for us to show that support."
